Introduction

“Every child deserves the best possible start in life and support to fulfil their potential. A child’s experience in the early years has a major impact on their future life chances. A secure, safe and happy childhood is important in its own right and it provides the foundation for children to make the most of their abilities and talents as they grow up.”

- “Early Years Foundation Stage Profile” Department for Children, Schools and Families
2012

Principles

The EYFS is based upon four principles:

- **A unique child:** We recognise that every child is a competent learner who can be resilient, capable, confident and self-assured. We recognise that children develop in individual ways and at varying rates. Children’s attitudes and dispositions to learning are influenced by feedback from others; we use praise and encouragement as well as celebration and rewards to encourage and develop a positive attitude to learning.

Positive relationships: We recognise that children learn to be strong and independent from secure relationships and aim to develop caring, respectful and professional relationships with the children and their families.

Enabling environments: We recognise that the environment plays a key role in supporting and extending the children’s development. Through observations we assess the children’s interests, stages of development and learning needs before planning challenging and achievable activities and experiences to extend their learning.

Learning and development: The Foundation Unit is organised to allow children to explore and learn securely and safely. There are areas where the children can be active, be quiet and rest. The unit is set up in learning areas where children are able to find and locate equipment and resources independently.

Early childhood is the foundation on which children build the rest of their lives. At Great Finborough Primary School we greatly value the importance that the EYFS plays in laying secure foundations for future learning and development. However, we also believe that early childhood is valid in itself as part of life. It is important to view the EYFS as preparation for life and not simply preparation for the next stage of education.

The EYFS for children is from birth to five years of age. All children begin school with a wide variety of experiences and learning and it is the privilege of the adults working in the foundation stage to accept the task of building upon that prior learning experience. This is done through an holistic approach to learning ensuring that parents and carers, support staff and the Foundation Stage team work effectively together to support the learning and development of the children in their charge.

Aims

It is every child's right to grow up safe, healthy, enjoying and achieving, making a positive contribution and with economic well being. The overarching aim of the EYFS is to help young children achieve these five outcomes. We will provide a broad and balanced curriculum that will enable each child to develop personally, socially, emotionally, spiritually, physically, creatively and intellectually to their full potential. Each child is valued as an individual and teaching and learning is based on the understanding that children develop at different rates.

At Great Finborough Primary School, we aim to:

- Provide a safe, challenging, stimulating, caring and sharing environment which is sensitive to the needs of the child including children with additional needs.
- Provide a broad, balanced, relevant and creative curriculum that will set in place firm foundations for further learning and development in Key Stage 1 and beyond.
- Use and value what each child can do, assessing their individual needs and helping each child to progress.
- Enable choice and decision making, fostering independence and self-confidence.
- Work in partnership with parents and carers and value their contributions ensuring that all children, irrespective of ethnicity, culture, religion, home language, family background, learning difficulties, disabilities, gender or ability.
- Provide opportunities whereby children experience a challenging and enjoyable programme of learning and development.
- Provide experiences for all children, whatever their needs, which are inclusive rather than parallel.

Learning and Development

Learning and development is categorised into three prime areas of learning:

- Communication and language.
- Physical development.
- Personal, social and emotional development.

Additionally there are four specific areas of learning:

- Literacy.
- Mathematics.
- Understanding the world.
- Expressive arts and design.

Achievement of these prime and specific areas of learning is by:

- Playing and exploring.
- Active learning.
- Creating and thinking critically.

Observation, Assessment and Planning

Good planning is the key to making children's learning effective, exciting, varied and progressive. Effective learning builds on and extends what children know and can already do. Our planning shows how the principles of the EYFS are put into practice and is always informed by observations we have made of the children, in order to understand and consider their current interests, development and learning needs. All staff who work in the Foundation Stage are involved in this process.

The planning within the EYFS is based around the children's interests. These plans are used by the EYFS team as a guide for weekly planning. However, we may alter these in response to the needs of the children.

We make regular assessments of children's learning and we use this information to ensure that future planning reflects identified needs. Assessment in the EYFS takes the form of long, short and recorded observations and this involves the teacher and other adults as appropriate. These observations are recorded and used to inform Pupil Progress Meetings. The parents and carers are given the opportunity to meet with the Foundation Stage Team each term and, at the end of the third term, we provide a written summary in relation to the children's early learning goals to parents and carers.

Learning through Play

At Great Finborough Primary School, we do not make a distinction between work and play. Children learn through planned play activities and staff will decide when child-initiated or adult-led play activities would provide the most effective learning opportunities.

The Induction Process

During the Summer Term prior to starting school the following September the following visits are conducted:

- Parents will be invited to an Induction Evening where the transition process will be explained and questions answered.
- Foundation staff will visit pre-school settings from which September's intake will be taken.
- Where possible, foundation staff will visit each child in their home environment.
- Each child and their parents and carers will be invited to our 'Come and Join in' Sessions in order to familiarise themselves with both the staff and the foundation unit environment.
- Each child and their parents and carers will be invited to attend a Forest Schools Session with the current Foundation Class and their teacher.

Home and School Links

We recognise that parents and carers are a child's first and most enduring educators and we aim for the schools and parents and carers to work closely in the Foundation unit. This can have a very positive impact on a child's development but relies on a two-way flow of information and knowledge.

We will develop this working relationship between the school and parents and carers as follows:

- We will outline the school's expectations in the Home School Contract.
- We will hold a parent consultation early in the year to establish how a child is settling into the school environment.
- We will send home a WOW sheets designed to enable parents or carers to record outstanding achievements.
- We will publish a theme topic leaflet detailing the areas of learning and the overarching theme of the term or half-term.
- We will operate an "open door" policy that will allow parents and carers to discuss concerns and developments in an informal manner. Conversely, if Foundation staff have concerns about the progress of a child, they will immediately approach parents and carers to discuss them.
- We will conduct workshops for parents and carers to enable them to be familiar with the teaching methods used in school to make it easier to emulate them at home.
- We will conduct a further parent consultation late in the term to inform parents and carers formally of a child's results and overall progress.
- There will be opportunities for parents and carers to visit the school on a volunteer basis to assist with the children's learning.
- At the end of term, we will invite parents and carers to visit the school informally in order to fully appreciate the work that has been produced in that term.

Inclusion and Equal Opportunities

Children with special educational needs will be supported as appropriate to enable them to access the curriculum fully. This includes children that are more able and those with specific learning difficulties and disabilities. Individual Support Plans identify targets in specific areas of learning for those children who require additional support commensurate with the school's Special Educational Needs Policy. The school's SEN Co-ordinator is responsible for providing additional information and advice to staff and parents and for arranging external intervention and support as necessary.

In line with the school's Equal Opportunities Policy, we will provide all children, regardless of ethnicity, culture, religion, home language, family background, learning difficulties, disabilities, gender or ability with equal access to all aspects of school life to ensure that every child is valued as an individual. All staff are role models and are aware of the influence they have in promoting positive attitudes and use that influence to challenge stereotypical attitudes.

Monitoring and Review

It is the responsibility of the EYFS staff to follow the principles stated in this policy. The head teacher will carry out monitoring on the EYFS as part of the whole school monitoring process. EYFS staff will attend moderation for their cluster.
